I checked with our Executive Director and he said that the signature on the original complaint will be sufficient.

Thank you for submitting the proper complaint form. I will process today and you will be copied on the notice to the public body.

I swore and subscribed to the original complaint. There is also an attestation that the complaint was subscribed and sworn, and Joel Case is sitting next to me now, if you need more info from him. There is no place on the pdf form for me to type a signature. I can use a pdf editor and place a mark on the pdf if my subscription on the original instrument is unacceptable.

Sincerely,
Joseph Rawson

Hi Joseph,

Please make sure to sign the form and return it back to me – the one you sent me does not have your signature.

Thank you.

I'm sorry about the look of the text from filling out the forms. I haven't had to fill a pdf with forms before. Oddly, I had to "print to pdf" to actually see the filled forms. I used Mr. Carroll's business card for the mailing address, instead of the street address for City Hall. I am used to going through the clerk when corresponding to the council, but it seems that MEC has to handle a larger set of public bodies that may not have a clerk.

I hope everything is filled out sufficiently and is acceptable. Thanks! :)

Sincerely,
Joseph Rawson
